Proof of the complete alliance of the pope with our enemies in this stupendous war continues to accumulate.

1. Mysterious missions and secret negotiations between Vienna and the vatican during the early months of the war and immediately prior thereto showed clearly the wicked collusion of the head of the papal empire with the rulers of the Teutonic empires to subjugate and papalize the non-Roman Catholic Balkan States.

2. Widespread and persistent acts of treason in Roman Catholic Ireland and among the Roman Catholic Irish in this country, under the dishonest pretext of urging home-rule for Ireland, has further shown the hostility of the papal empire to Great Britain and the United States and the intrigue of that empire with those now fighting to perpetuate despotism and brutality.

3. The high-handed treason committed by a member of the papal household, which the pope seems to have made no effort to prevent or punish, demonstrated beyond cavil the accord of the papacy with the central empires.

4. The letter of recommendation given by the pope to Bolo Pasha, which enabled that Roman Catholic French traitor to perpetrate the boldest, most impudent and astounding treason against his country and its allies since the war began, adds to the cumulative proof. 5. The terms of peace set forth in the note of Benedict and so promptly and righteously rejected

by the president are so completely favorable to Germany and so identical with the German proposals as to remove all doubt that the papal note was inspired, if not written, by the Teutonic governments. 6. Disclosures recently made by Secretary Lansing show a felonious conspiracy of three Irish Roman Catholics, widely known as such in this country, with the imperial government of Germany through its late ambassador to cause widespread destruction of lives and property in our munition factories and other industrial plants.

7. The appointment of Count von Hertling, leader of the Roman Catholic political forces in the German empire, to the office of imperial chancellor affords additional proof of the working alliance that binds the kaiser, the pope, the sultan and the emperor of Hungary in one common purpose. While the kaiser and other despots claim divine right to rule their respective peoples, the pope

has surpassed all other autocrats in asserting this claim more than a thousand years. Divine right to rule is the root and kernel of papal prerogatives. It is the sole basis of his claim to infallibility when speaking ex-cathedra, that is, from his imperial throne.

When the time comes to depose and uncrown the divine-right despots, the papal throne and triple gold crown, which have served the purpose of cruelty and plunder longer and better than any other, which have degraded more lands, shed more innocent blood and enslaved both soul and body of more peoples than all others combined, should go with those of the kaiser and the sultan as symbols of a despotism whose days are numbered.

Wonderful Egg Producer

THE MENACE wishes to take this opportunity to heartily thank Cardinal O'Connell and the Catholic Federation of the archdiocese of Boston for offering so unanswerable and illuminating proof of the truth of our main contention, that Rome is in politics—up to her ears in politics, and that she is in politics because she is at war against the bed-rock principles of liberal democracy and is seeking to make America dominantly Roman Catholic in order to reduce these great distinguishing glories of our republic to "MERE SCRAPS OF PAPER."
